

Dear students,

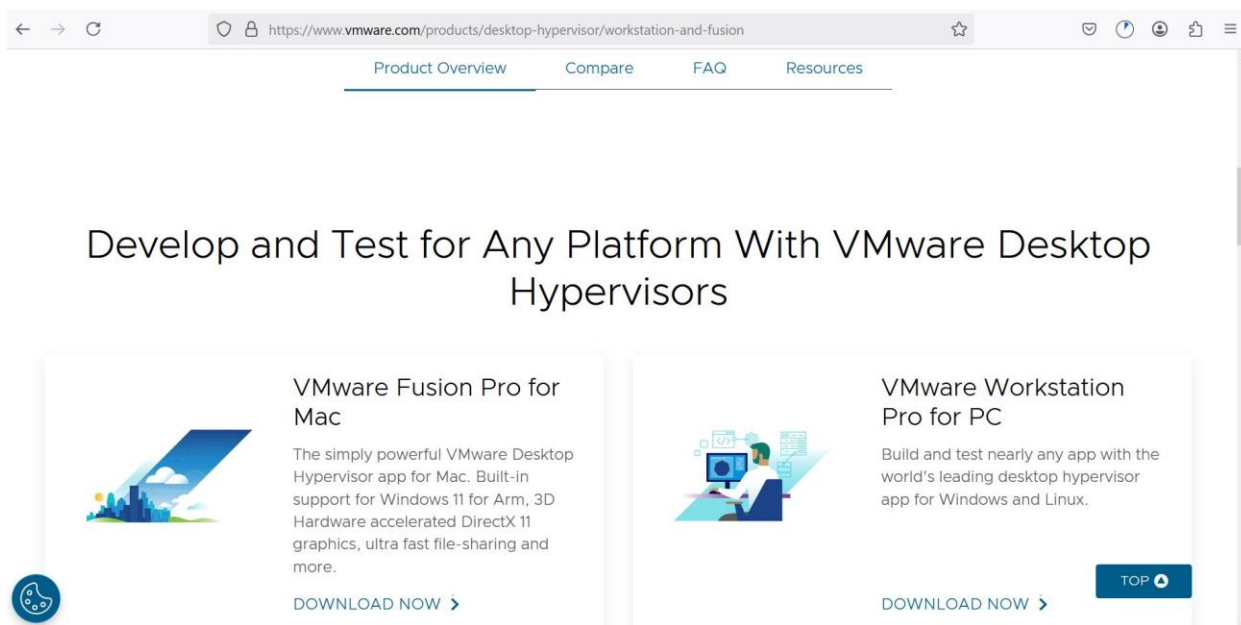

Please note that the download process for VMware software has recently changed. As a result, the first part of the video explaining the download and installation process is now outdated. However, you can still download the same VMware software using the new method outlined in this PDF. Simply follow the updated steps provided, and you'll be able to install the software without any issues. I apologize for any confusion, and I appreciate your understanding. The rest of the course remains unaffected, and you'll be able to continue with your learning without interruption.

Thank you for your flexibility and happy learning!

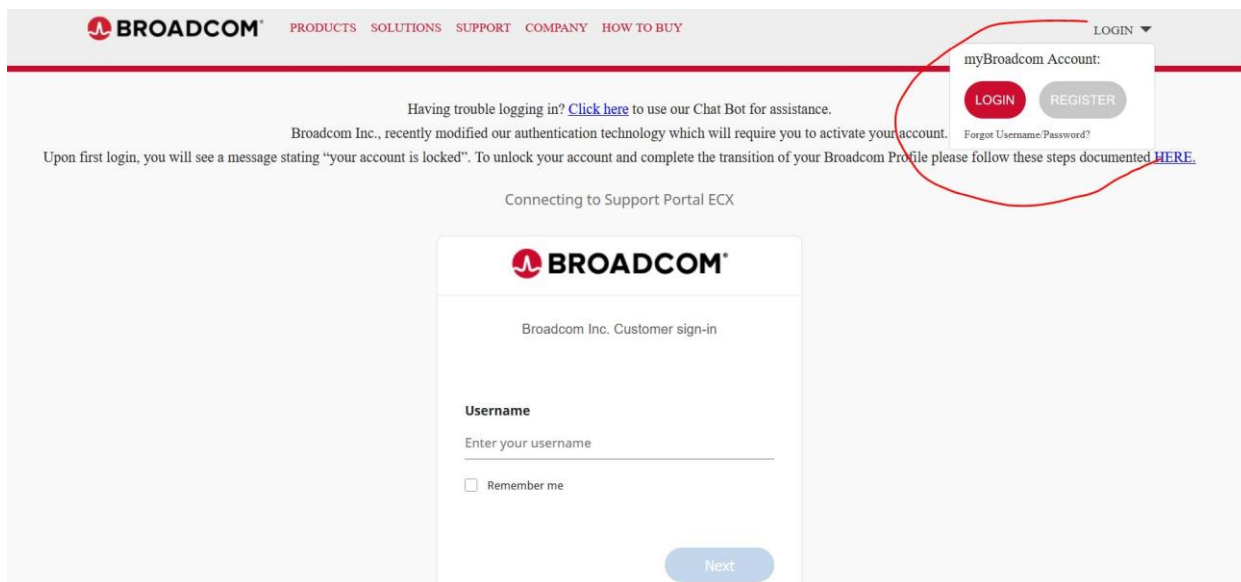

First, please click on the link below to open the related page:

<https://www.vmware.com/products/desktop-hypervisor/workstation-and-fusion>

On the following page, click on the **DOWNLOAD NOW** text right under the **VMware Workstation Pro for PC** text, which will bring you to the Broadcom main page.

On the following page, if you already have a Broadcom account, you can directly login to the system, or you can click on the **REGISTER** button to create an account.

Here, you need to enter your email and the security text and click NEXT.

The screenshot shows the 'User Registration' form on the Broadcom Support Portal. The background features the portal's logo and a message: 'Broadcom Support Portal' and 'Enhance your skills through multiple self-service avenues by creating your Broadcom Account'. The registration form is a white box with the title 'User Registration' and the subtitle 'Create your Account'. It contains an 'Email Address' field with the placeholder 'hame@company.com' and a red error message 'Email is required'. Below the email field is a CAPTCHA image showing the word 'ZUIS' in green on a textured background. Underneath the CAPTCHA is a text input field labeled 'Enter text from image' and a 'Next' button. At the bottom of the form, there is a warning icon and the text 'Use of a shared email account or a distribution'.

A verification code will be sent by Broadcom to the email you specified. You need to enter that code into the following page.

The screenshot shows the 'Verify your Email Address' page on the Broadcom Support Portal. The background is the same as the registration page. The verification form is a white box with a back arrow at the top left. It has the title 'Verify your Email Address' and the subtitle 'Enter the verification code sent to'. Below the subtitle, the email address is partially redacted with a black box, followed by '@gmail.com'. There are six empty input boxes for the verification code. At the bottom, there are two links: 'Didn't receive the code? Resend' and 'Having trouble? Click here for help.'.

If the verification code you entered is correct, you will be redirected to the actual login page, which is presented below. You need to fill all the areas having the red asterisk signs on the left.

By signing in, you agree to our [Terms of Use](#). Your privacy is important to us. Please see our [Privacy Policy](#) for more information.

 Use of a shared email account or a distribution list (PDL) is a security risk and a violation of the [Terms of Use](#) for this Site.

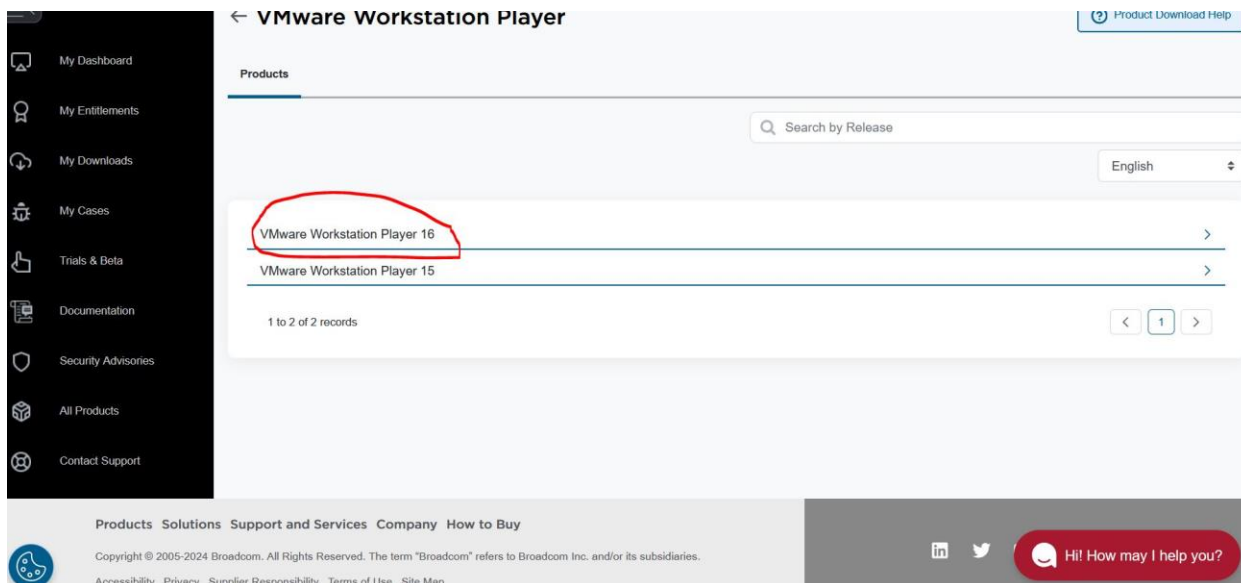

Once you logged in successfully, you will see the following page. On this page. You need to click on the text “HERE” shown in the red circle below.

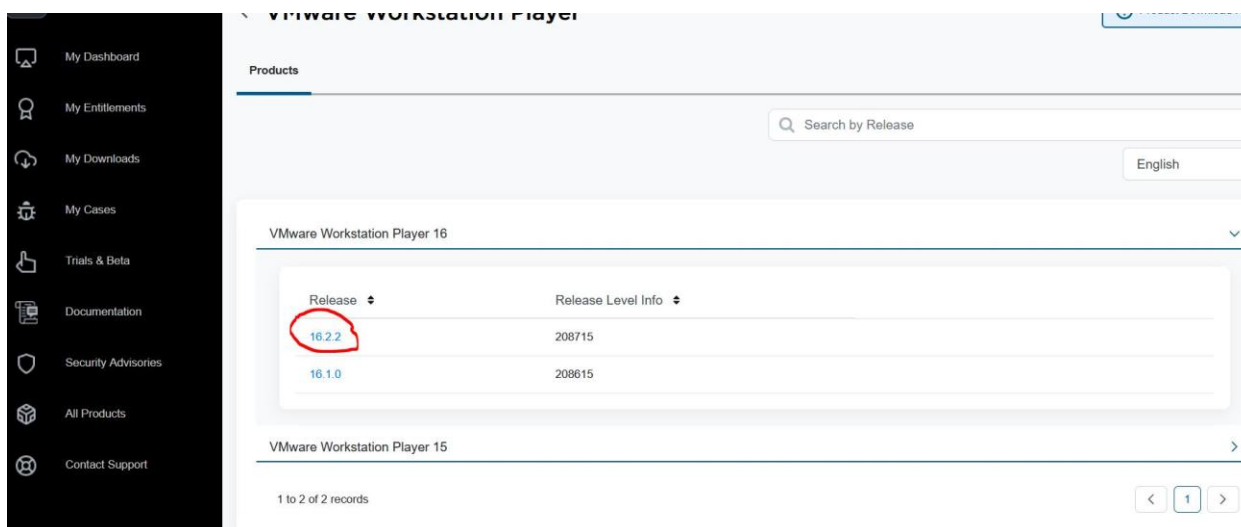

On the following page, you need to select the VMware Workstation Player option as shown below.

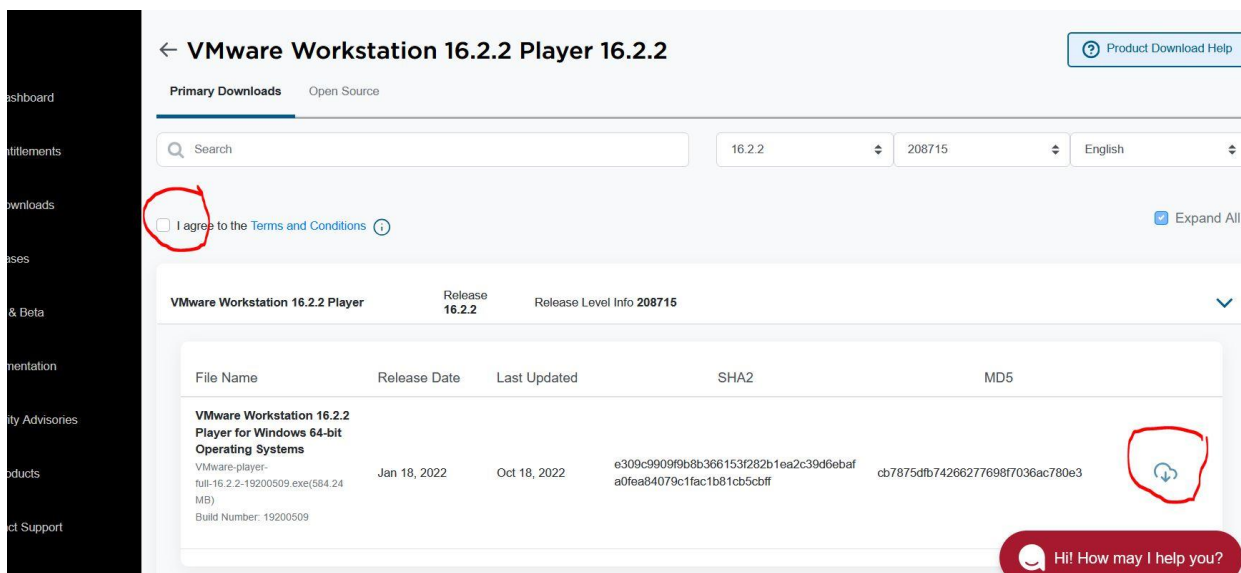

On the following page, you need to select VMware Workstation Player 16.

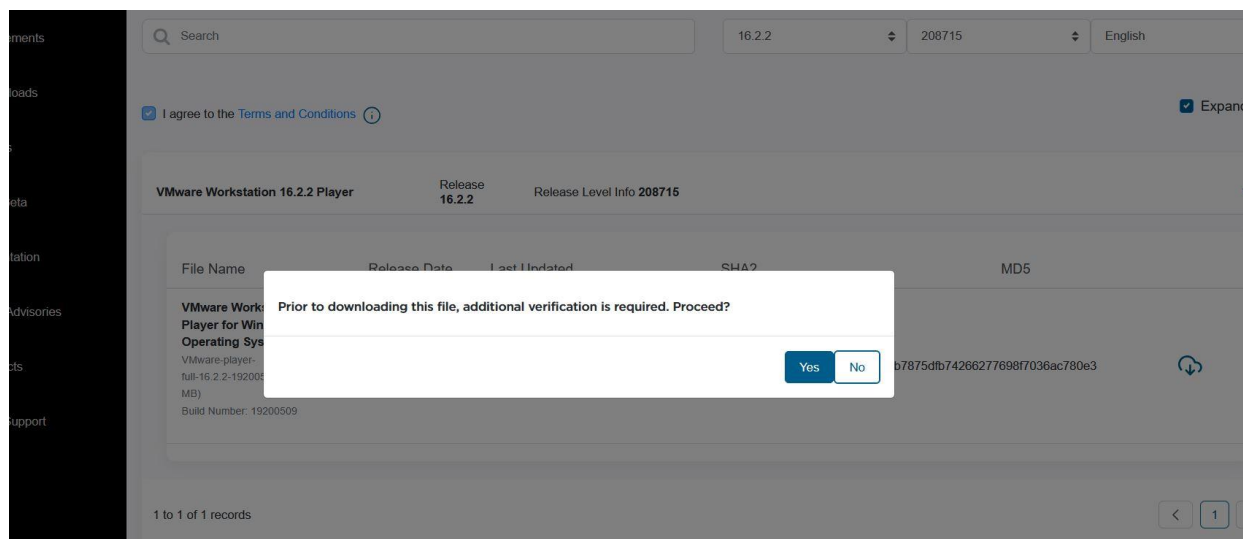

Then the latest version of the VMware player, which is 16.2.2 for now.

Agree the Terms and Conditions, and then click on the download icon shown in red circle.

Click on YES to proceed.

Even if we don't buy anything here, Broadcom still wants us to enter some more information. After filling necessary areas, you can select "I Agree" and then Submit.

The screenshot shows the "Trade Compliance and Download Conditions" form. It includes fields for First Name, Last Name, Email, Company, Address1, Address2, City, State/Province, Country, and Zip/Postal Code. Below the form is a legal disclaimer and a section for agreement. The "I Agree" radio button is selected and circled in red. The "Submit" button is also circled in red.

* Country: [Redacted] * Zip/Postal Code: [Redacted]

I understand that the export laws and regulations of the United States and other countries apply to the use, export, and re-export of this software (including associated documentation, technical information, and support, "Software"). I will not use, export, or re-export the Software, directly or indirectly, except as permitted by the United States and other applicable law. In particular, but without limitation, I will not export or re-export the Software, directly or indirectly, (i) into (or to a national or resident of) any U.S. embargoed country (ii) to anyone on the U.S. Department of Commerce Table of Denial Orders, or the U.S. Treasury Department list of Specially Designated Nationals, Specially Designated Terrorists, or Specially Designated Narcotic Traffickers, or (iii) for any end use that is prohibited by United States or other applicable law. I represent that I am not located in, under control of, or a national or resident of any such country or on any such list and that the U.S. government has not suspended, revoked, or denied my export privileges. I affirm that I will not use the Software for nuclear, missile, chemical biological weaponry, or other weapons of mass destruction (for more information on the U.S. export laws, see the Bureau of Industry and Security's home page).

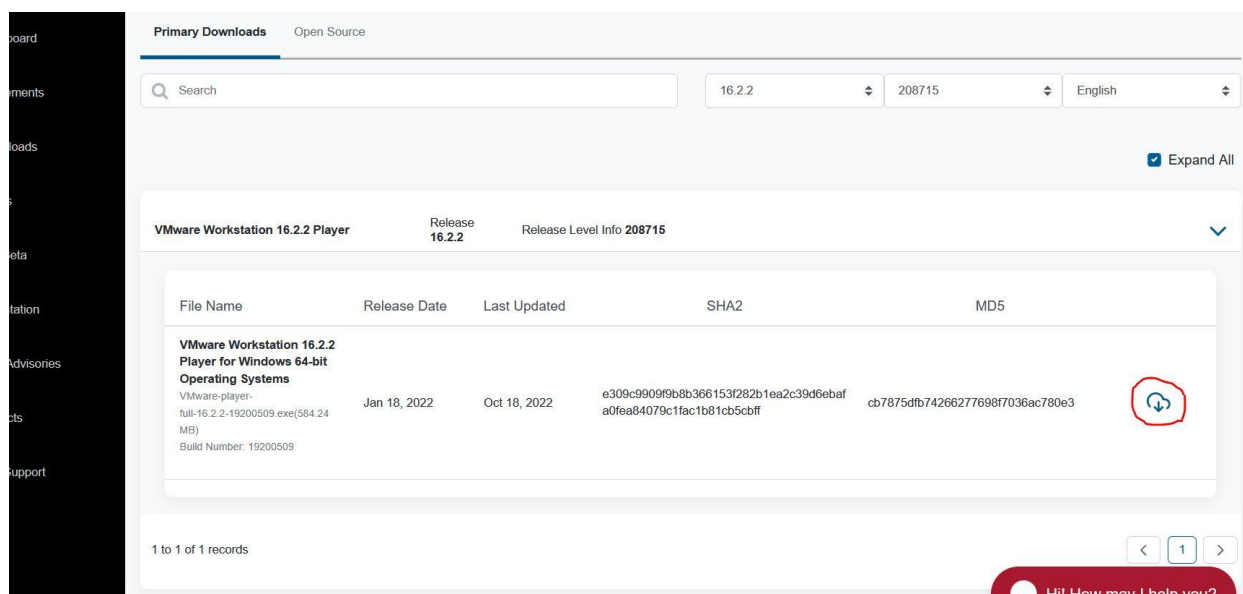

By selecting "I Agree" and submitting my information, I acknowledge and agree (i) to the export requirements specified above, (ii) that any download I access via this site is only permitted for the internal use and benefit of the originally licensed company, which must hold a valid license for the relevant Broadcom Software, (iii) that any download I access via this site may only be used within such company's facilities, and (iv) that all such downloads will not be disseminated to any other company.

Hi! How may I help you?

Once you submit the necessary data, you need to click on the download icon again. This time the download will start.

Once you complete downloading the executable file, installing and configuring will be the same as it is explained in the video. So now you can go back to the video, and install the software.

Best regards
